

LevuCell SC

titan

LEVUCCELL SC 10TITAN contains the live yeast *Saccharomyces cerevisiae* CNCM I-1077. It has been selected as it enhances digestion, animal productivity and maintains general well-being of ruminants and horses.

Feeding LEVUCCELL SC 10 TITAN in a diet helps in the:

- Stabilisation of rumen pH and optimisation of nutritional status such as reduction of the risk of Sub-Acute Ruminant Acidosis (SARA),
- Stimulation of microbial biomass and of enzymatic and cellulolytic activities in the rumen and/or,
- Improvement of the anaerobic rumen environment (aerobiosis).

CHARACTERISTICS AND APPLICATION

Appearance: granular, beige to grey beadlets.

LEVUCCELL SC 10TITAN is a micro-encapsulated formulation. It can be used in premixtures and is ideal for use in pelleted feed.

It is formulated for flowability in transfer systems (e.g. silos) and forms homogenous distribution in feeds.

LEVUCCELL SC 10 TITAN can be used in all feeds and is compatible with most ingredients such as feed additives and feed materials typically used in ruminant and horse feeds.

COMPOSITION

Saccharomyces cerevisiae CNCM I-10771x10¹⁰ CFU*/g
* Colony Forming Units

DIRECTIONS FOR USE

TECHNICAL RECOMMENDATIONS
g/head/day In complete feed

Dairy cows ¹	≥ 1.0 g≥ 40 g/T (i.e. ≥ 4x10 ⁸ CFU/kg)
Beef Cattle ¹	≥ 0.8 g≥ 50 g/T (i.e. ≥ 5x10 ⁸ CFU/kg)
Dairy goats ²	≥ 0.4 g	... ≥ 160 g/T (i.e. ≥ 1.6x10 ⁹ CFU/kg)
Dairy ewes ²	≥ 0.4 g≥ 120 g/T (i.e. ≥ 1.2x10 ⁹ CFU/kg)
Lambs ²	≥ 0.3 g≥ 300 g/T (i.e. ≥ 3x10 ⁹ CFU/kg)
Horses ³	≥ 2.0 g≥ 300 g/T (i.e. ≥ 3x10 ⁹ CFU/kg)

SPECIFICATIONS

Microbial specifications:

<i>Salmonella</i> sp.	Negative /25g
Enterobacteria	< 1 000 CFU*/g

REGULATORY AND QUALITY INFORMATION

This product does not contain animal substances nor product or ingredient that might pose a TSE/BSE risk.

Moreover, it does not contain nor is derived from genetically modified material or organism.

European authorisations:

- E1711 (¹Micro-organisms) for use in bovine destined for milk and meat production,
- 4b1711 (²Gut flora stabilisers) for use in dairy goats, dairy ewes, and lambs,
- 4a1711 (³Digestibility enhancers) for use in horses.

SAFETY INFORMATION

It is recommended to use protective gloves and mask during handling.

STORAGE AND SHELF LIFE

Store in a cool and dry place, in its original unopened packaging.

Shelf life and composition of the product are guaranteed during 24 months from date of production under these conditions.

PACKAGING

20 kg cardboard box with aluminium inner bag sealed under controlled atmosphere.

Not all products are available in all markets nor associated claims allowed in all regions.
